

### **Off-Site Summer Camp Adventures**

One thing that makes us unique here at W.E.U. is that each day our groups are able to explore, enjoy, and adventure at a different location! Whether we are kayaking at Twinning Pond, Stream Hiking at Stanley Park, or Learning survival skills at Granville Gorge each day represents a new opportunity to learn, play, and grow together.

We pride ourselves in being experienced, prepared, trained in all that we do. Did you know that most of our staff started at W.E.U. when they were young day campers too?!

### **Some of the locations we utilize frequently are listed below**
